

CIVIC CENTER PHASE II PROJECT UPDATE

March 17, 2021

RECENT PROJECT HIGHLIGHTS

December 2020

- North Entrance storefront glass placed at the Civic Center
- Library Plaza concrete sidewalks and guardrail are set
- Updated carpet at the City Council Chamber Lobby

January 2021

- North Civic Center Entrance is OPEN
- Library Plaza snowmelt system is operational - still working out of few bugs
- Library gets some much needed added support for all those books

February 2021

- The Civic Center Mall carpet removal and replacement complete
- Carpet Removal began at the Library
- Structural Repairs to the 1992 Library Addition underway
- New paint throughout the staff area of the Library

♣ ♣ ♣ The Shenanigans have begun ♣ ♣ ♣

The Leprechaun's have been busy! Library Staff packed up their desks and moved up to the second floor. Johnson-United moved all the furniture out to prepare for the structural repairs extending the life expectancy of the building (the repairs have been said to resemble a Candyland game board).

Skips Carpet then replaced the carpet and the move back began.

COVID quarantined book operations moved from the Library's West Meeting Rooms to the Library's West Entrance Vestibule while structural repairs were completed. New carpet was placed yesterday and the process continues...

All while the Library curbside operations are runnin' in the green!

♣ ♣ ♣ LUCKY TO HAVE YOUR CONTINUED PATIENCE DURING CONSTRUCTION ♣ ♣ ♣

UPCOMING EVENTS

- Crews continue making needed structural repairs and renovations to the existing Library 1975 foundation and the 1992 addition including the second floor.
